AIRLINE FILTER

**MORE FILTRATION,  
CAPACITY, VERSATILITY  
THE RADEX SYSTEM**

Quality Accredited Company

*Units displayed with optional second coupler on outlet.*

The Radex quick disconnect coupler is universally compatible with brands like (Aro, Cejn, Dixon, Rectus)

Upgrade your Radex Airline Filter to include the optional auto drain valve, continuous moisture removal from the filter housing will increase your filter cartridge lifespan.

125 psi safety pressure relief valve safeguards your respirators from being over pressurized.

The outlet pressure regulator provides you with the ability to adjust the air pressure to your supplied air respirators. Pressure range from 0-125 psi

The large capacity 6 stage filter cartridge removes moisture and particulates to 0.5 micron and odor from the compressed air stream, providing you with clean breathable air.

**WARNING:**

1. Read all instructions before using this Radex Airline Filter
2. This Radex Airline Filter does not remove carbon monoxide or other toxic gases
3. Do not exceed the Radex Airline Filter of more than 125psi
4. Operate this valve every 45 hours to release any water

PLACE FILTER REPLACEMENT STICKER HERE

**RPB**

Every genuine RPB Respiratory replacement filter cartridge comes with a replacement date sticker so you can schedule maintenance.

Die cast aluminium filter housing, strong, robust and lightweight.

The Radex has a unique twist and lock mounting system making it a breeze to mount in either the floor or wall mounting positions. No bolts required, simply place in position and turn to lock.
